try these 4 easy wardrobe fixers!

Found the perfect dress, but it keeps slipping down or your bra peeks out? Don't you dare put it back on the rack! Instead, check out these awesome wardrobe solutions from [Sassybax Shapewear](#). The Sassybips, Sassymax, and Very Bare Backless Bra are all meant to save fashion no-nos. [Sassybips](#) (\$18, approx. 25 wears) are silicone nipple concealers that can be concealed inside a soft-cup bra.

Another problem can be not quite filling out the bust of a cute dress. Nude-colored [Sassymax inserts](#) (\$48, unlimited wear) boost your natural curves by one full cup size. They're not adhesive — instead, they come in the shape of molded cups for soft-cup bras and are packaged in a tray for easy storage (see above). Or dare to go backless with the [Very Bare Backless Bra](#) (\$78, approx. 20-50 wears), which is a fave of [Whitney Port](#), [Cameron Diaz](#), and [Jennifer Lopez](#). The cups fit all sizes, ranging from AA-DD, and support tabs can be trimmed for an even more custom fit. The silicone adhesive placed inside the top and bottom of the cups and on the tabs give the bra an extra-firm hold, and the satiny microfiber is non-clingy. Bonus: it comes with a removable halter strap!

Another tip: If you're running a little low on cash, simply make your current bras live longer. The washing machine has a tendency to destroy 'em. Instead, wash your bras, undies, tights, socks, and swimwear with the [Berry Ball & Bag](#) (\$13.99, see right). The Berry Ball & Bag is also great for traveling — it prevents bras from getting crushed in your suitcase (and makes a thoughtful gift for a friend who's traveling). You can buy the care set in specialty stores across the U.S. or online at [ComfortHouse.com](#). We have to say, we were getting pretty tired of twisted tights and snagged bikinis!
