## Bras, meet Berry Ball!

Posted by Leeza on Jun 2nd, 2010

### Leeza's review:

Always one to follow instructions (*giggle and snicker*), I have been reluctantly diligent about hand washing my lined t-shirt bras in an effort to ensure that they don't lose their smooth form or elasticity from getting twisted and pulled in the washing machine. This diligence, however, means finding extra laundry time in my busy week. Or, even worse, wearing my favorite bra "just one more time" before it gets washed. **Enter the NEW Berry Ball & Berry Bag from Berry Perry! My life just got a little easier!**

Now, I am a DDD cup, so technically the Berry Ball is not meant for my sizeable undergarments (the set comes available in sizes small and large to accommodate cup sizes 32A - 38D). But I figured it was worth a shot just the same, and it worked wonderfully. **I simply opened the ball with the easy snaps, maneuvered the cups into the contoured sides of the ball, threw in the 'scrubbing ball' and snapped her shut. Then I tossed the whole ball in the wash.**

**Then I tossed the whole ball in the wash.**

27 minutes later I pulled out my bra, which had not only maintained its shape and elasticity, but likely had the best wash it has had in its lifetime as well.

The set also includes a **Berry Bag**, which can be used inside the ball to protect more delicate bras, as well as panties, hosiery and other delicates in the wash. And both ball and bag are sure to come in handy next time I am traveling. I am going to put my lined bras inside the ball within my suitcase so that they don't end up flattened and twisted by the time I get to my destination!

Gone are my days of hand washing my everyday t-shirt bras. Thank you Berry Perry!
