The Berry Ball - the hand-washing solution for your bras

September 7th, 2010 8:08 am ET

The solution for washing or packing your bra
Photo: www.the-lingerie-post.com

When washing your fine lingerie it's important to follow the correct laundering steps in order to maximize the longevity of your bras and other intimate pieces

While [hand washing](#) is always the best method there is a new alternative out there, if you dare, called [The Berry Ball](#).

Having just launched this summer, it's designed to care for lingerie quickly and easily while washing your intimates in the washing machine. No more twisting, deforming, pulling, tangling that happens if you typically throw any bras in the wash (but you wouldn't do that, right?). Bras are protected throughout the wash cycle to maintain shape and support, and the Berry Ball features a unique scrubbing ball to clean bras from the inside. For socks, hosiery, underwear, etc. they also have the Berry Bag – similar to other lingerie bags you can find.

However, they do say for best results, put only one bra in the Berry Ball at a time. But you can put multiple balls in each wash load for a hand-wash result.

The Berry Ball is also great for suitcase packing. You can store your bra into the ball and voila – your bra will be in great shape when you arrive at your destination.

The set comes available in sizes small and large for cup sizes 32A – 38D, in colors pink, purple or blue. The Berry Ball & Berry Bag is available in select stores and [online](#) for a suggested retail price of \$13.99.
